# 克裏夫蘭舉行民主黨總統候選人初選辯論

【本報訊】2月26日在克利夫蘭大學進行了美國民主黨總統參選人希拉里和奧巴馬的辯論，兩人不約而同地猛烈抨擊對手歪曲自己在醫療、貿易等重要問題上的立場。兩人

“激烈碰撞”，整個過程是希拉里猛攻、奧巴馬穩守。  
 由於此前希拉里已經連輸奧巴馬11場，她必須在3月4日舉行預選的俄亥俄和得克

薩斯兩州獲勝才有可能遏制奧巴馬的勢頭。此前這兩州的民調顯示，奧巴馬搶走了不少原先擁護希拉里的選民，其支持率已經逼近希拉里。面臨“絕境”的前第一夫人必須背水

一戰。但希拉里看好俄亥俄州會給她更多的支持。  
 克城黃唯律師事務所也是本次辯論贊助商之一。

## TCP, Inc.'s CEO Delivers Keynote Speech at the 12th Annual Ohio Energy Management & Restructuring Conference

Keynote message focused on energy efficient lighting and how it can save energy costs and reduce carbon dioxide

Columbus, OH - (February 26, 2008) - Ellis Yan, innovator, founder and CEO of TCP, Inc., the world's leading energy efficient lighting manufacturer, was today's keynote speaker at the 12th Annual Ohio Energy Management & Restructuring Conference. Business leaders, facility managers and sustainability executives from major companies, organizations and utilities in Ohio are attending the two-day conference to gain insight on the best practices in energy management as well as the effective, efficient and innovative use of energy.

The major focus of this year's conference centers on the Ohio Energy, Jobs and Progress Plan and how it will impact electric rates on January 1, 2009

and beyond. While leading utility officials offered detail on what to expect and how to best prepare for the future, energy experts explained how to manage, control and reduce energy costs through the use of energy efficient products, emerging technologies and renewable energy sources.  
 As a company rooted in energy conservation, TCP's energy efficient lighting products provide an energy saving alternative for consumers and businesses looking to save money and protect the environment. Yan's keynote message focused on corporate social responsibility and the immediate cost-saving and environmental benefits associated with energy efficient lighting.  
 "TCP's foundation in sustainable

manufacturing practices, and our commitment to produce only environmentally friendly products, means we are selling more than just light bulbs," said Yan. "We sell energy efficiency and sustainability."  
 Yan continued, "From cutting down on packaging waste, to reducing energy use in our buildings, to optimizing the materials that we use to manufacture our products, TCP is constantly working to weave sustainability into the fabric of the company."
