State Representative Diane Grendell Hosts Oncologist Dr. Xuan Huang And Daughter Wendi Song

November 19, 2019

[Diane V. Grendell Home | Diane V. Grendell Press] COLUMBUS – State Representative Diane V. Grendell (R – Chesterland)

welcomed University Hospital's renowned Dr. Xuan Huang and her daughter Wendi Song to the Ohio Statehouse today. Dr. Huang and Wendi were invited to spend the day with Representative Grendell and experience state government.

Representative Grendell brought both Dr.

Huang and Wendi along to Health Committee, with the House Session following soon after. Dr. Huang and Wendi were honored at session for their establishment of the UH Geauga Medical Cancer Patient Support Fund. Earlier this year, they raised close to \$10,000 in the first half of

the year that will be used to support the medical center's cancer patients.

"I was honored to have such a professional, vivacious woman and her intelligent daughter with me to observe the process at work," said Representative Grendell.

Wendi Song

The most interesting part for this visit for me was listening to and watching the House Session. I really enjoyed watching the Representatives vote on the different bills, and watching them go through the procedures that I had learned in my AP government class really helped me understand the process. I enjoyed being in the Health Committee meeting and listening to the questioning of the witnesses by the Representatives. The witnesses were all prepared and ready to defend their points, and the Representatives asked really insightful questions. It was just really exciting hearing about the issue and also being able to relate to it.??

It was during the Health Committee meeting that I learned about the proposed bill regarding nurse practitioners. It proposed for certain practices, a loosening of regulations for

nurse practitioners regarding collaborations with physicians, and I recognized some of the problems they were discussing over. As my mom is a physician who has experience interacting with nurse practitioner, I could understand the issue and relate to it, because it directly concerned the job security and practices of doctors, and I had previously never realized this issue between NPs and physicians. It was through this bill that I learned both about the issue and the procedures for witnesses and questioning.

I am grateful to the opportunity of spending time with Representatives Diane Grendell and get to learn things I would not be able to learn in classroom. I will continue indulge myself in the field of my interest. This visit fortified my interest in political science and the decision of choosing it as my major in college.

WASHINGTON — Republican National Committee (RNC) Chairwoman Ronna McDaniel released the following statement on today's impeachment vote:

"History was made today, but not in a way Democrats had hoped. With this vote, Nancy Pelosi and her fellow impeachment crusaders have ensured the reelection of President Trump and a return of a Republican majority in the House," said Chairwoman Mc-

過這次表決，眾院議長南希·佩洛西和她的彈劾十字軍團確保了特朗普總統贏得明年的連任，也更加穩固共和黨重返眾院多數黨的地位。”麥克丹尼爾重申，“美國民眾徹底看清了民主黨熱衷黨爭的虛偽性及其背後的真實意圖，民主黨政客的唯一重心就是推翻美國2016年大選結果，而不是他們鼓吹的民主與民生承諾。美國選民在2020年將再次選擇特朗普總統，支持並且擁護真正代表他們利益、而絕不是沉迷於推翻民選總統的參選人。”

Daniel. "The American people have turned on this partisan sham and see Democrats in Congress for what they truly are: politicians whose sole focus is to overturn the result for the 2016 election, not on the real issues they promised to address. In 2020, voters will re-elect President Trump and choose candidates who will truly work on their behalf instead of obsessing over destroying a duly-elected President."
